BEFORE YOU START

What's in this document, and what I need you to do

What's inside

1 **What I found online**
Where your business shows up today, including a spelling mistake on Yell.

2 **Your local competitors**
Who else comes up when people search, and how they compare.

3 **What I recommend**
The plan to get you found: Google, reviews and a website.

4 **Decisions for you**
The choices only you can make, starting with your business name.

5 **What I need from you**
Photos and a few details, with how to send them.

6 **Cost and next steps**
What it costs, and what happens after you reply.

What I need you to do

1 **Read sections 1 to 3.**
They explain what I found and what I'm suggesting. No action needed.

2 **Answer the questions in section 4.**
Most important: what name do you want to trade as?

3 **Send the items listed in section 5.**
Mainly photos, plus a few details.

The easiest way to reply is a WhatsApp to **07428 728780**. Voice notes are fine. If it's easier to talk it through, give me a ring and we'll go through it together in about 15 minutes.

Section 1

What I found online

I searched for your business the way a customer would, using your phone number and business names. This section shows what came up, what's missing, and the problems that need fixing first.

Where you appear today | The spelling mistake | Too many business names | No Google listing

Your business appears in one place online

Searching for your phone number, 07742 135592, turns up a single listing on Yell. You don't appear on Google Maps, and you don't have a website yet.

WHERE	WHAT I FOUND	STATUS
Yell	Listed as "Main Man Carpentery and Building", under Builders in Lichfield. Also shows in Yell's patio listings.	FOUND, NEEDS FIXING
Google Business Profile	Not found under Main Man, Main Man Carpentry, CM MainWorks or CM Home Improvements.	MISSING
Facebook	Your page exists (facebook.com/61574301627028). I can't view it from here, so please send me your best photos from it.	SEND PHOTOS
Website	You don't have one yet. That's what I'll build for you.	MISSING
Instagram	Nothing found under your business names.	NEED DETAILS
Reviews	None found on Checkatrade, MyBuilder, Trustpilot or Google.	MISSING

Your Yell listing has a spelling mistake

How Yell lists you now

Main Man Carpentery and Building

How it should be spelled

Main Man Carpentry and Building

“Carpentery” has an extra E. The correct spelling is **carpentry**.

Why it matters

- **People search for “carpentry”.** A misspelled name is less likely to come up when they do.
- **Google checks your details match.** It compares your name, number and area across every website that lists you. If they don’t match, it trusts your business less and shows it less.
- **It looks careless.** For a trade where attention to detail is the selling point, a spelling mistake in your own name puts people off.

How to fix it

You can fix this yourself. Once you’ve decided on your business name (section 4), log in to your Yell account and edit the business name so it matches exactly. It only takes a couple of minutes.

You're using four different business names

Between your Yell listing and the logos you've been using, I've found four different names. To a customer, and to Google, they look like four different businesses.

CM MainWorks Construction & Carpentry

Logo 2

CM Home Improvements and Painting

What I need from you

Pick **one** name to trade under. We'll then use exactly the same name and spelling everywhere: Yell, Google, Facebook, your van, your invoices and your new website. Your options are set out in section 4.

You’re not on Google Maps

When someone searches “carpenter Lichfield”, Google shows a map with three local businesses at the top. That’s where most people tap first. To appear there, you need a free Google Business Profile, and at the moment you don’t have one.

What a Google Business Profile gives you

- A place on Google Maps and in the map box at the top of searches
- Somewhere for customers to leave reviews
- Your phone number, hours, photos and the areas you cover, all in one place
- It’s free

What happens next

1. **You confirm your business name.**
   The profile has to match the name you trade under.
2. **I set up the profile with you.**
   Google sends a verification code to you, so I’ll need about 10 minutes of your time.
3. **We fill it with your photos and ask past customers for reviews.**

If you’ve ever set one up before, even years ago, let me know. It’s better to recover an old one than start a new one.

Section 2

Your local competitors

Who else comes up when people around Lichfield search for a carpenter or builder, how many reviews they have, and what their websites do well and badly.

Google reviews compared

Competitors' websites

Most local carpenters have fewer than 35 Google reviews

These are the carpenters and builders that came up on Google around Lichfield, Shenstone, Tamworth and Sutton Coldfield. Apart from one builder with 203 reviews, nobody has more than 31. Getting to 30 good reviews would put you near the top.

BUSINESS	AREA	RATING	REVIEWS	MAIN WORK
PH & C Easter Builders	Elmhurst, Lichfield	5.0	**203**	Extensions and renovations
TopBuild Carpentry	Tamworth	5.0	**31**	Staircases, wardrobes, media walls
Woodworx Carpentry	Sutton Coldfield	5.0	**26**	Doors, alcoves, kitchens
1st Choice Carpentry & Building	Sutton Coldfield	4.7	**26**	Panelling, kitchens, doors
Matt Pearce Carpentry	Lichfield	4.7	**12**	Kitchens, wardrobes, doors
MHC Carpentry Services	Shenstone	5.0	**9**	Lofts, doors, kitchens
MDC Carpentry Services	Whittington	4.3	**7**	Staircases
You	**Lichfield**	**–**	**–**	**Not on Google yet**

Ratings and review counts as shown on Google on 26 October 2026.

What competitors' websites do well, and where they fall short

Only two local carpenters show up on Google with their own websites. Most search results are directories like Checkatrade and MyBuilder, which charge you to be listed next to your rivals.

Fit & Fix Property Care

fitandfixpc.co.uk · built on Squarespace, one page

Does well

- Phone number large and near the top
- Clear list of services
- Introduces the owner by name

Falls short

- Doesn't show reviews on the site
- Copied text in one section
- Only one page, so fewer chances to show up in searches

Lichfield Handyman

lichfieldhandyman.com · built on Wix, many pages

Does well

- A separate page for each service and each town. This is why it shows up in searches
- Shows a starting price

Falls short

- Out of date (still says 2021)
- Spelling mistakes in its main headings
- Menu links that go to the wrong page
